What should we do to improve the lives of children growing up in adversity? Presenting a new strategy based in the emerging science of success.

Helping Children Succeed – What Works and Why

Sport psychology is an interdisciplinary science that draws on knowledge from many related fields including biomechanics, physiology, kinesiology and psychology. It involves the study of how psychological factors affect performance and how participation in sport and exercise affect psychological and physical factors. In addition to instruction and training of psychological skills for ...
